

## Features:

**"Extreme Efficiency Cyclone", "Bag and Cartridge Filter Separator"**

### Vacuum Generator:

Due to it's High Tech Unique engineering design, It makes the Dust-Vac the most **"POWERFULL AND EFFICIENT MACHINE IN IT'S CLASS"**.

### Powerfull Vacuum Generator:

High quality TEFC Motor and Turbine with durable Alluminum casting and **"ENGINEERED ELECTRONICALLY BALANCED IMPELLERS"**.

### Extreme Efficiency Cyclone:

Separates 99% of dust and debris of the total, before it gets to the filters.

### Two stage Bag and cartridge Filter Separators:

Separates dust fine particules, creating a 99.999 % dustfree Air. (optional HEPA filters)

### All in One Machine:

Simple Portable System, Motor, Turbine Vacuum Generator, Heavy duty steel Construction Filter separators and Cyclone Pre-separator in one frame.

### LONG LASTING HEAVY DUTY EQUIPMENT.

Built to work hard 24/7  
Built to last long.  
Built for less Maintenance .  
Built to reduce your labor on grinding concrete.

### PORTABLE.

Easy one person transportation.  
Convenience size can go thru any walk in 36"x80" Entry.

### SAVES MONEY.

It creates the vacuum necessary to lift 98% of the static dust when grinding a concrete floor, having less DIAMOND WEAR.

### SAVES MONEY.

Less labor and equipment.  
No need to vacuum again between each grit Change.

### NO PLASTIC BAG.

Extremely durable and easy handle 17 gallon polypropylenedirt container.

### Benefits:

\*High Vacuum power \* Save money \* Portable all in one \* Forward-Reverse Controls \* Easy Dump Containers.

**Distributors and Resalers WELCOME !!!**
